

Assembly Bill No. 1610

CHAPTER 724

An act to amend Sections 2558.46, 8223, 8335.4, 8335.5, 8335.7, 8357, 8450, 14041.5, 14041.6, 37252.2, 41203.1, 42238.146, 42606, 44396, 47614.5, 47634.4, 48260.5, 48262, 52055.770, 54026, 56523, and 84043 of, to amend and repeal Section 84321.5 of, to add Sections 14041.7, 41207.4, 42238.24, 54021.1, 54021.2, 84321.6, and 99221.5 to, to add Chapter 3.5 (commencing with Section 66150) to Part 40 of Division 5 of Title 3 of, to repeal Section 92612.5 of, and to repeal Chapter 4 (commencing with Section 400) of Part 1 of Division 1 of Title 1 of, the Education Code, to amend Section 17581.5 of the Government Code, to amend Section 38 of Chapter 12 of the Third Extraordinary Session of the Statutes of 2009, to amend Section 5 of Chapter 3 of the Fourth Extraordinary Session of the Statutes of 2009, and to amend Section 1 of Chapter 221 of the Statutes of 2010, relating to education, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 19, 2010. Filed with
Secretary of State October 19, 2010.]

I am signing AB 1610 with the following objections.

I am deleting specific appropriations for the California community colleges contained in subdivisions (d) and (e) of Section 31 of this bill.

I am deleting the appropriation in subdivision (d) of Section 31 of this bill, which provides \$25,000,000 Proposition 98 General Fund for the community college Economic Development and Workforce Development Program. While I support economic development activities, this reduction is necessary to limit program expansion, to bring ongoing expenditures in line with existing resources, and to help maintain a prudent reserve. With this reduction, the Budget Act of 2010 still provides the Economic Development categorical program with \$22.9 million for workforce training and development efforts.

I am deleting the appropriation in subdivision (e) of Section 31 of this bill, which provides \$35,000,000 Proposition 98 General Fund for various community college categorical programs. This appropriation is intended to backfill various categorical programs that received one-time State Fiscal Stabilization Funds in 2009-10. This federal funding was intended to soften the transition to reduced funding levels that are necessary to bring ongoing expenditures in line with existing resources. Restoring this funding would be counterproductive to the tremendous effort that has been invested to align ongoing expenditures with expected revenues.

Sincerely,

ARNOLD SCHWARZENEGGER, Governor

LEGISLATIVE COUNSEL'S DIGEST

AB 1610, Committee on Budget. Education finance.

(1) Existing law establishes the English Language Acquisition Program, which is designed for pupils enrolled in grades 4 to 8, inclusive, and requires local educational agencies, as defined, participating in the program to conduct assessments, to provide an instructional program, to provide supplemental instructional support, and to coordinate available services and funding. Existing law requires the Superintendent of Public Instruction to allocate annually to each participating local educational agency \$100 for each pupil participating in the program and a one-time \$100 allocation for pupils in kindergarten or grades 1 to 12, inclusive, who are reclassified to English-fluent status.

This bill would repeal the program and would require the Superintendent to increase the amount of economic impact aid received by a school district by the amount the district received from the English Language Acquisition Program for the 2009–10 fiscal year. The bill would continue in existence the English Language Development Professional Institutes and would authorize a local educational agency to use economic impact aid funds for those purposes.

(2) Existing law requires a revenue limit to be calculated for each county superintendent of schools, adjusted for various factors, and reduced, as specified. Existing law reduces the revenue limit for each county superintendent of schools for the 2009–10 fiscal year by a deficit factor of 18.250%.

This bill would maintain the deficit factor for each county superintendent of schools for the 2010–11 fiscal year at 18.621%.

(3) The Child Care and Development Services Act, administered by the State Department of Education, provides that children up to 13 years of age are eligible, with certain requirements, for child care and development services. Existing law provides for child care alternative payment programs, the purpose of which is to provide for parental choice in child care. Existing law requires reimbursement for alternative payment programs to include the cost of child care, plus administrative and support services. Under existing law, the total cost for administrative and support services is not permitted to exceed 19% of the total contract amount.

This bill would instead provide that the administrative and support services costs would not be permitted to exceed 17.5% of the total contract amount.

(4) Existing law requires the Superintendent of Public Instruction to administer child care and development programs that offer a full range of services for eligible children from infancy to 13 years of age. Existing law, until January 1, 2011, authorizes the City and County of San Francisco, as a pilot project, to develop and implement an individualized county child care subsidy plan, and provides for the repeal of those provisions on January 1, 2013.

This bill would authorize the City and County of San Francisco to implement an individualized county child care subsidy plan until July 1, 2013, and would require the city and county to phase out the plan and implement the state's requirements for child care subsidies as of July 1, 2015. The bill would require the city and county, on or before June 30, 2013,

to submit a final report to the Legislature and other specified entities that summarizes the impact of the plan. The bill would make those provisions inoperative on July 1, 2015, and would repeal those provisions on January 1, 2016.

(5) Existing law requires the cost of state-funded child care services to be governed by regional market rates and requires a regional market rate ceiling to be established at the 85th percentile of the 2005 regional market rate survey for that region.

This bill would set the reimbursement rate for license-exempt providers at 80% of the regional market rate ceiling.

(6) Existing law encourages all child development contractors to develop and maintain a reserve within the child development fund, derived from earned but unexpended funds. Existing law allows child development contractors to retain all earned funds, as defined. Existing law requires that earned but unexpended funds remain in the contractor's reserve account within the child development fund and be expended only by direct service child development programs that are funded under contract with the State Department of Education.

This bill, commencing July 1, 2011, would allow a child development contractor operating a direct service child development program to retain a reserve fund balance equal to 5% of the sum of the maximum reimbursable amounts of all contracts to which the contractor is a party, or \$2,000, whichever is greater.

(7) Existing law requires the Controller to draw warrants on the State Treasury in each month of each year in specified amounts for purposes of funding school districts, county superintendents of schools, and community college districts. Existing law defers the drawing of those warrants, as specified.

This bill would defer additional specified amounts of the warrants for school districts and county superintendents of schools for April and May to July.

The bill would allow up to \$100,000 of the amount of the warrants for the principal apportionments for June that are deferred until July to be drawn instead in June for a charter school or school district that will be unable to meet its financial obligation for June if specified criteria are met. The bill would authorize additional payments for school districts and county superintendents of schools of up to \$300,000,000 if sufficient cash is available.

The bill also would authorize the Controller to issue warrants for a community college district that include the full amount of deferred apportionments if the president of the district certifies to the Chancellor of the California Community Colleges and the Director of Finance that the deferral of warrants will result in the district being unable to meet its expenditure obligations, as specified.

(8) Existing law limits the amount of specified revenue limit apportionments that counts towards the minimum funding obligation for the following fiscal year to \$1,101,655,000.

This bill would increase that amount by \$500,000,000.

(9) Existing law requires the governing board of a school district maintaining any of grades 2 to 9, inclusive, to offer programs of direct, systematic, and intensive supplemental instruction to pupils enrolled in grades 2 to 9, inclusive, who have been recommended for retention or who have been retained at their grade for the next year.

This bill would make this requirement inoperative from the date this bill is enacted until July 1, 2013, during which time school districts would be relieved from performing any activities under this provision that are deemed to be reimbursable state mandates.

(10) Existing law requires, for the 1990–91 fiscal year and each fiscal year thereafter, that moneys to be applied by the state for the support of school districts, community college districts, and direct elementary and secondary level instructional services provided by the state be distributed in accordance with certain calculations governing the proration of those moneys among the 3 segments of public education. Existing law makes that provision inapplicable to the fiscal years between 1992–93 and 2009–10, inclusive.

This bill would make that provision inapplicable to the 2010–11 fiscal year.

(11) Section 8 of Article XVI of the California Constitution imposes on the state annual minimum funding requirements for school districts and community college districts.

The bill would appropriate \$210,100,000 from the General Fund to the Controller for allocation to school districts and community college districts for the purpose of offsetting the 2009–10 outstanding balance of the state minimum funding obligation. The bill would require this appropriation to be distributed to school districts in a manner that reflects the proportion of regular average daily attendance in school districts and to community college districts based on enrolled full-time equivalent students.

The bill would apply the appropriation to the outstanding balance of the minimum funding obligation to school districts and community college districts for the 2009–10 fiscal year, and deem the appropriations to be made and allocated in that fiscal year in which the deficiencies resulting in the outstanding balance were incurred.

The bill would require funding received by school districts and community college districts pursuant to this appropriation to first be deemed to be paid in satisfaction of any outstanding claims for reimbursement of state-mandated local costs for any fiscal year and would authorize funds received in excess of amounts offsetting mandate claims to be used for any other one-time purpose, as determined by the governing board of the school district or community college district.

(12) Existing law requires the county superintendent of schools to determine a revenue limit for each school district in the county and requires the amount of the revenue limit to be adjusted for various factors. Existing law reduces the revenue limit for each school district for the 2009–10 fiscal year by a deficit factor of 18.355%.

This bill would maintain the deficit factor for each school district for the 2010–11 fiscal year at 17.963%.

(13) Existing law specifies the courses a pupil is required to complete in order to receive a diploma of graduation from high school.

This bill would require that costs related to the salaries and benefits of teachers incurred by a school district or county office of education to provide those courses be offset by specified state funding and would require the proportion of the school district's current expense of education that is required to be expended for payment of the salaries of classroom teachers to first be allocated to fund the teacher salary costs incurred to provide the courses required by the state.

(14) Existing law authorizes a local educational agency, including a direct-funded charter school, to apply for any state categorical program funding included in the annual Budget Act on behalf of a school that begins operation in the 2008–09 to the 2012–13 fiscal years, inclusive.

This bill would require the Superintendent to allocate a supplemental categorical block grant for the 2010–11 fiscal year to a charter school that begins operation in the 2008–09, 2009–10, or 2010–11 fiscal year and would authorize the charter school to use the block grant funds to be used for any educational purpose.

(15) Existing law makes a teacher who attains certification from the National Board for Professional Teaching Standards and meets other specified criteria eligible for an award. Existing law requires a school district that receives an application for an award to certify the applicant's employment and that the applicant meets the criteria and to submit the application to the State Department of Education for its review and approval.

This bill would eliminate the school district's obligations under this program.

(16) Existing law establishes the Charter School Facility Grant Program to provide assistance with facilities rent and lease costs for pupils in charter schools and requires the Superintendent of Public Instruction to allocate annually the facilities grants to eligible charter schools no later than October 1 of each fiscal year. Existing law requires funding appropriated for this program in the 2009–10 fiscal year be used first to reimburse eligible charter schools for rent or lease costs for the 2008–09 fiscal year.

This bill would require the grants to be allocated, instead, for the current school year rent and lease costs, but would require the department to first use the funding appropriated for the program to reimburse eligible charter schools for unreimbursed rent or lease costs for the prior school year.

(17) Existing law requires a school district to notify a pupil's parent or guardian, by first-class mail or other reasonable means, when the pupil is initially classified as a truant.

This bill would require the notification instead to be made using the most cost-effective method possible and would specify that this may include electronic mail or a telephone call.

(18) Existing law deems a pupil to be an habitual truant if the pupil is reported as a truant 3 or more times per school year unless an appropriate

district officer or employee has made a conscientious effort to hold at least one conference with a parent or guardian of the pupil and the pupil himself, after the filing of specified required reports.

This bill would define “conscientious effort” for purposes of this provision.

(19) Existing law appropriates specified amounts for various fiscal years for allocation by the Superintendent of Public Instruction and the Chancellor of the California Community Colleges for purposes of improving and expanding career technical education in public secondary education and lower division public higher education.

This bill, in addition, would appropriate specified amounts for the 2009–10 and 2010–11 fiscal years for allocation by the Superintendent and the chancellor for those purposes.

(20) Existing law provides for the administration and operation of public schools in juvenile halls, juvenile homes, day centers, juvenile ranches, juvenile camps, regional youth educational facilities, or Orange County youth correctional centers, as specified. Existing law requires the Superintendent of Public Instruction to compute an inflation-adjusted revenue limit for juvenile court school programs operated by a county superintendent of schools.

This bill would make a county juvenile court school eligible to receive economic impact aid funding commencing with the 2010–11 fiscal year.

(21) Existing law requires the Superintendent of Public Instruction to develop, and the State Board of Education to adopt, regulations governing the use of behavioral interventions with individuals with exceptional needs receiving special education and related services.

This bill would specify that this provision and its implementing regulations are declaratory of federal law and are intended to provide the clarity, definition, and specificity necessary for local educational agencies to comply with the federal Individuals with Disabilities Education Act. The bill would provide that this provision and the implementing state regulations shall not exceed the requirements of federal law, create new or separate state requirements, or result in a level of state service beyond that needed to comply with federal law and regulations. The bill would require local educational agencies to agree to adhere to implementing federal and state regulations as a condition of choosing to receive funding from the federal Individuals with Disabilities Education Act. The bill would authorize the Superintendent to monitor the compliance of local educational agencies and take appropriate action, including fiscal repercussions, if a local educational agency fails to comply or fails to implement the decision of a due process hearing officer based on noncompliance, as specified.

(22) Existing law, known as the Donahoe Higher Education Act, provides for a public postsecondary education system in this state. The University of California, which is administered by the Regents of the University of California, and the California State University, which is administered by the Trustees of the California State University, are 2 of the segments of the public postsecondary education system in this state. The provisions of the Donahoe Higher Education Act apply to the University of California only

to the extent that the Regents of the University of California act by resolution to make them applicable.

Existing law authorizes the Trustees of the California State University to require that fees, among other charges, be paid by students at that institution. Existing provisions of the California Constitution require the Regents of the University of California to have all powers necessary or convenient for the effective administration of the university.

This bill would prohibit the Trustees of the California State University from allocating, and would request the Regents of the University of California to not allocate, any fees that are proposed by a student body organization, as defined, and imposed pursuant to a vote of the students registered at a campus, branch, or location of the respective institution, for purposes of supporting intercollegiate athletics programs for any purpose or in any amount not approved by the vote of the students. The bill would require the trustees, and request the regents, at the end of an academic year, to refund to each fee-paying student a pro rata share of any portion of the fee that is not allocated for the authorized purposes during that academic year.

(23) Existing law, for the 2009–10 to 2012–13 fiscal years, inclusive, authorizes a community college district to use funds apportioned to the district for specified categorical programs, including career technical education, for purposes of a prescribed list of programs.

This bill would exclude funds apportioned for career technical education from the funds a community college district is authorized to use for other purposes.

(24) Existing law requires the Board of Governors of the California Community Colleges to adopt regulations for the payment of apportionments to community college districts. Existing law, notwithstanding the board of governors' authority in this respect, makes various adjustments to the payment of these apportionments.

This bill, commencing January 1, 2011, would revise the manner in which these apportionments are made according to specified criteria. The bill would appropriate \$832,000,000 from the General Fund to the Board of Governors of the California Community Colleges for apportionments to community college districts, to be expended in accordance with a specified schedule.

The bill would appropriate \$25,000,000 from the General Fund to the Chancellor of the California Community Colleges for the economic development program and would defer \$25,000,000 of that amount to July 2011. The bill would appropriate \$35,000,000 from the General Fund to the Chancellor of the California Community Colleges for specified categorical programs and would defer that amount to July 2011.

(25) Existing law expresses the intent of the Legislature that no new General Fund augmentation be made available for contributions to the University of California Retirement Plan.

This bill would repeal this provision.

(26) Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions.

Existing law provides that no local agency or school district is required to implement or give effect to any statute or Executive order, or portion thereof, that imposes a mandate during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if specified conditions are met, including that the statute or Executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. Existing law provides that only certain specified mandates are subject to that provision.

This bill would specify additional mandates relating to school districts and community college districts to those that are subject to the provision. The bill additionally would request the Department of Finance to file a request with the Commission on State Mandates, on or before December 31, 2010, for the purposes of seeking the adoption of a new test claim to supersede the collective bargaining mandate.

The bill would require the Controller to take specified actions regarding the school accountability report card mandate.

The bill would require the Legislative Analyst's Office to convene a working group, as specified, to consider the future of school district and community college district mandates and would require the working group to develop recommendations by March 15, 2011, including whether to preserve, modify, or eliminate particular mandates.

(27) Existing law appropriates \$570,000,000 for class size reduction in kindergarten and grades 1 to 3, inclusive, to be expended consistent with the specified requirements.

This bill would reduce that appropriation to \$230,044,000 and would identify funds that the State Department of Education would be required to use if the funds appropriated for this program are insufficient.

The bill would require the Superintendent of Public Instruction to certify to the Controller the amounts needed for the 2010–11 fiscal year to fund the class size reduction program and set forth a schedule for the transfer of that funding. The bill would require the Controller to transfer that funding from the General Fund to the State School Fund, thereby making an appropriation. The bill would require the Superintendent, before making each certification, to notify the Department of Finance, the Legislative Analyst, and the appropriate policy and fiscal committees of the Legislature regarding the amounts the Superintendent intends to certify and would require the notification to include the data used in determining the amounts to be certified.

(28) Existing law appropriates \$903,845,000 from the Federal Trust Fund, pursuant to a specified schedule, to the State Department of Education, the Board of Governors of the California Community Colleges, the

University of California, and the California State University for the 2010–11 fiscal year.

This bill would increase that appropriation to \$906,845,000.

(29) This bill would revert to the General Fund specified amounts from specified office reference items in the Controller’s office that would have been applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution for the 2009–10 fiscal year and was unallocated, unexpended, or not liquidated as of June 30, 2010, and appropriate \$339,956,000 from the General Fund to the Superintendent of Public Instruction for allocation for the 2010–11 fiscal year for special education to satisfy obligations incurred during the 2009–10 fiscal year. This appropriation would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution for the 2010–11 fiscal year.

The bill would reduce 3 prior reversions to the General Fund from specified office reference items in the Controller’s office that would have been applied toward the minimum funding requirements and were unallocated, unexpended, or not liquidated as of June 30, 2009.

(30) This bill would appropriate \$905,700,000 from the General Fund to the State Department of Education for 10 specified programs according to a specified schedule, and would require the department to encumber these funds by July 31, 2011. The bill would provide that, for purposes of satisfying the minimum annual funding obligation for school districts required by the California Constitution, the appropriated funds are General Fund revenues appropriated for school districts and community college districts for the 2011–12 fiscal year.

(31) This bill would set the cost-of-living adjustment for specified items in the Budget Act of 2010 at 0% for the 2010–11 fiscal year notwithstanding the cost-of-living adjustment specified in existing statutes.

(32) This bill would require funds appropriated pursuant to specified items in the Budget Act of 2009 to be encumbered by July 31, 2011.

(33) The funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(34) This bill would declare that it is to take effect immediately as an urgency statute.

Appropriation: yes.

SEC. 3. Section 8223 of the Education Code is amended to read:

8223. The reimbursement for alternative payment programs shall include the cost of child care paid to child care providers plus the administrative and support services costs of the alternative payment program. The total cost for administration and support services shall not exceed an amount equal to 17.5 percent of the total contract amount. The administrative costs shall not exceed the costs allowable for administration under federal requirements.

SEC. 4. Section 8335.4 of the Education Code is amended to read:

8335.4. (a) Upon approval of the plan by the Child Development Division of the department, the City and County of San Francisco shall annually prepare and submit to the Legislature, the State Department of Social Services, and the department a report that summarizes the success of the pilot project and the city and county's ability to maximize the use of funds and to improve and stabilize child care in the city and county.

(b) The City and County of San Francisco shall submit an interim report to the Legislature, the State Department of Social Services, and the department on or before December 31, 2010, and shall submit a final report to those entities on or before June 30, 2013, summarizing the impact of the plan on the child care needs of working families in the city and county.

SEC. 5. Section 8335.5 of the Education Code is amended to read:

A child enrolling for the first time for subsidized child care in the city and county after July 1, 2013, shall not be enrolled in the pilot program established pursuant to this article and is subject to existing state laws and regulations regarding child care eligibility and priority.

SEC. 6. Section 8335.7 of the Education Code is amended to read:

8335.7. This article shall become inoperative on July 1, 2015, and as of January 1, 2016, is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 7. Section 8357 of the Education Code is amended to read:

8357. (a) The cost of child care services provided under this article shall be governed by regional market rates. Recipients of child care services provided pursuant to this article shall be allowed to choose the child care services of licensed child care providers or child care providers who are, by law, not required to be licensed, and the cost of that child care shall be reimbursed by counties or agencies that contract with the State Department of Education if the cost is within the regional market rate. For purposes of this section, "regional market rate" means care costing no more than 1.5 market standard deviations above the mean cost of care for that region. The regional market rate ceilings shall be established at the 85th percentile of the 2005 regional market rate survey for that region.

(b) Reimbursement to license-exempt child care providers shall not exceed 80 percent of the family child care home rate established pursuant to subdivision (a).

(c) Reimbursement to child care providers shall not exceed the fee charged to private clients for the same service.

(d) Reimbursement shall not be made for child care services when care is provided by parents, legal guardians, or members of the assistance unit.

(e) A child care provider located on an Indian reservation or rancheria and exempted from state licensing requirements shall meet applicable tribal standards.

(f) For purposes of this section, “reimbursement” means a direct payment to the provider of child care services, including license-exempt providers. If care is provided in the home of the recipient, payment may be made to the parent as the employer, and the parent shall be informed of his or her concomitant legal and financial reporting requirements. To allow time for the development of the administrative systems necessary to issue direct payments to providers, for a period not to exceed six months from the effective date of this article, a county or an alternative payment agency contracting with the State Department of Education may reimburse the cost of child care services through a direct payment to a recipient of aid rather than to the child care provider.

(g) Counties and alternative payment programs shall not be bound by the rate limits described in subdivision (a) when there are, in the region, no more than two child care providers of the type needed by the recipient of child care services provided under this article.

(h) Notwithstanding any other provision of law, reimbursements to child care providers based upon a daily rate may only be authorized under either of the following circumstances:

(1) A family has an unscheduled but documented need of six hours or more per occurrence, such as the parent’s need to work on a regularly scheduled day off, that exceeds the certified need for child care.

(2) A family has a documented need of six hours or more per day that exceeds no more than 14 days per month. In no event shall reimbursements to a provider based on the daily rate over one month’s time exceed the provider’s equivalent full-time monthly rate or applicable monthly ceiling.

(3) This subdivision shall not limit providers from being reimbursed for services using a weekly or monthly rate, pursuant to subdivision (c) of Section 8222.

SEC. 8. Section 8450 of the Education Code is amended to read:

8450. (a) All child development contractors are encouraged to develop and maintain a reserve within the child development fund, derived from earned but unexpended funds. Child development contractors may retain all earned funds. For the purpose of this section, “earned funds” are those for which the required number of eligible service units have been provided.

(b) (1) Earned funds shall not be expended for any activities proscribed by Section 8406.7. Earned but unexpended funds shall remain in the contractor’s reserve account within the child development fund and shall be expended only by direct service child development programs that are funded under contract with the department.

(2) Commencing July 1, 2011, a contractor may retain a reserve fund balance, separate from the reserve fund retained pursuant to subdivision (c) or (d), equal to 5 percent of the sum of the maximum reimbursable amounts of all contracts to which the contractor is a party, or two thousand dollars

(\$2,000), whichever is greater. This paragraph applies to direct service child development programs that are funded under contract with the department.

(c) Notwithstanding subdivisions (a) and (b), a contractor may retain a reserve fund balance for a resource and referral program, separate from the balance retained pursuant to subdivision (b) or (d), not to exceed 3 percent of the contract amount. SEC. 11. Section 14041.7 is added to the Education Code, to read:

14041.7. (a) Commencing with the 2010–11 fiscal year, up to one hundred million dollars (\$100,000,000) of the amount of the warrants for the principal apportionments for the month of June, that are instead to be drawn in July pursuant to Section 14041.5, may be drawn in June, subject to the approval of the Director of Finance, for a charter school or school district as follows:

(1) In order for a charter school to receive a payment in June pursuant to this section, the chartering authority, in consultation with the county superintendent of schools, shall certify to the Superintendent and the Director of Finance on or before April 1 that the deferral of warrants pursuant to Sections 14041.5 and 14041.6 will result in the charter school being unable to meet its financial obligations for June and shall provide the Superintendent an estimate of the amount of additional funds necessary for the charter school to meet its financial obligations for the month of June.

(2) In order for a school district to receive a payment in June pursuant to this section, the county superintendent of schools shall certify to the Superintendent and to the Director of Finance on or before April 1 that the deferral of warrants pursuant to Sections 14041.5 and 14041.6 will result in the school district being unable to meet its financial obligations for June and shall provide the Superintendent an estimate of the amount of additional funds necessary for the school district to meet its financial obligations for the month of June.

(3) The criteria, as applicable, set forth in statute and regulations to qualify a school district for an emergency apportionment shall be used to make the certification specified in paragraph (2).

(4) A charter school or school district may receive, pursuant to this section, no more than the lesser of the following:

(b) If the total amount requested by charter schools and school districts pursuant to paragraph (4) of subdivision (a) exceeds one hundred million dollars (\$100,000,000), the Controller, Treasurer, and Director of Finance may authorize additional payments to meet these requests, but total payments to charter schools and school districts pursuant to this section shall not exceed three hundred million dollars (\$300,000,000). No later than May 1, the Controller, Treasurer, and Director of Finance shall determine whether sufficient cash is available to make payments in excess of one hundred million dollars (\$100,000,000). In making the determination that cash is sufficient to make additional payments, in whole or in part, the Controller, Treasurer, and Director of Finance shall consider costs for state government, the scope of any identified cash shortage, timing, achievability, legislative direction, and the impact and hardship imposed on potentially affected programs, entities, and related public services. The Department of Finance shall notify the Joint Legislative Budget Committee within 10 days of this determination and identify the total amount of requests that will be paid.

(c) If the total amount of cash made available pursuant to subdivision (b) is less than the amount requested pursuant to paragraph (3) of subdivision (a), payments to charter schools and school districts shall be prioritized according to the date on which notification was provided to the Superintendent and the Department of Finance.

37252.2. (a) The governing board of each school district maintaining any or all of grades 2 to 9, inclusive, shall offer, and a charter school may offer, programs of direct, systematic, and intensive supplemental instruction to pupils enrolled in grades 2 to 9, inclusive, who have been recommended for retention or who have been retained pursuant to Section 48070.5. A school district or charter school may require a pupil who has been retained to participate in supplemental instructional programs. Notwithstanding the requirements of this section, the school district or charter school shall provide a mechanism for a parent or guardian to decline to enroll his or her child in the program. Attendance in supplemental instructional programs shall not be compulsory within the meaning of Section 48200.

(b) Supplemental educational services pursuant to subdivision (a) may be offered during the summer, before school, after school, on Saturdays, or during intersession, or in a combination of summer school, before school, after school, Saturday, or intersession instruction. Services shall not be provided during the pupil’s regular instructional day. Any minor pupil whose parent or guardian informs the school district that the pupil is unable to attend a Saturday school program for religious reasons, or any pupil 18 years of age or older who states that he or she is unable to attend a Saturday school program for religious reasons, shall be given priority for enrollment in supplemental instruction offered at a time other than Saturday, over a pupil who is not unable to attend a Saturday school program for religious reasons.

(c) For purposes of this section, a pupil shall be considered to be enrolled in a grade immediately upon completion of the preceding grade. Summer school instruction may also be offered to pupils who were enrolled in grade 6 during the prior school year. For ninth grade pupils identified in subdivision (a), summer school instruction may also be offered to pupils who were enrolled in grade 9 during the prior school year.

(d) Each school district or charter school shall use results from tests administered under the Standardized Testing and Reporting Program, established pursuant to Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 or other evaluative criteria to identify eligible pupils pursuant to subdivision (b).

(e) An intensive remedial program in reading or written expression offered pursuant to this section shall, as needed, include instruction in phoneme awareness, systematic explicit phonics and decoding, word attack skills, spelling and vocabulary, explicit instruction of reading comprehension, writing, and study skills.

(f) Each school district or charter school shall seek the active involvement of parents and classroom teachers in the development and implementation of supplemental instructional programs provided pursuant to this section.

(g) It is the intent of the Legislature that pupils who are at risk of failing to meet state adopted standards, or who are at risk of retention, be identified as early in the school year and as early in their school careers as possible, and be provided the opportunity for supplemental instruction sufficient to assist them in attaining expected levels of academic achievement.

(h) Notwithstanding any other provision of law, neither the State Board of Education nor the Superintendent of Public Instruction may waive any provision of this section.

(i) School districts are relieved from the obligation to perform any activities under this section that are deemed to be reimbursable state mandates pursuant to Section 6 of Article XIII B of the California Constitution from the date that the act amending this subdivision in 2010 is enacted until July 1, 2013.

SEC. 13. Section 41203.1 of the Education Code is amended to read:

41203.1. (a) For the 1990–91 fiscal year and each fiscal year thereafter, allocations calculated pursuant to Section 41203 shall be distributed in accordance with calculations provided in this section. Notwithstanding Section 41203, and for the purposes of this section, school districts, community college districts, and direct elementary and secondary level instructional services provided by the State of California shall be regarded as separate segments of public education, and each of these three segments of public education shall be entitled to receive respective shares of the amount calculated pursuant to Section 41203 as though the calculation made pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution were to be applied separately to each segment and the base year for the purposes of this calculation under paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution were based on the 1989–90 fiscal year. Calculations made pursuant to this subdivision shall be made so that each segment of public education is entitled to the greater of the amounts calculated for that segment pursuant to paragraph (1) or (2) of subdivision (b) of Section 8 of Article XVI of the California Constitution.

(b) If the single calculation made pursuant to Section 41203 yields a guaranteed amount of funding that is less than the sum of the amounts calculated pursuant to subdivision (a), the amount calculated pursuant to Section 41203 shall be prorated for the three segments of public education.

(c) Notwithstanding any other law, this section does not apply to the 1992–93 to 2010–11 fiscal years, inclusive.

SEC. 14. Section 41207.4 is added to the Education Code, to read:

41207.4. (a) The sum of two hundred ten million one hundred thousand dollars (\$210,100,000) is hereby appropriated in the 2010–11 fiscal year from the General Fund to the Controller for allocation to school districts and community college districts for the purpose of offsetting the 2009–10 outstanding balance of the minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution.

(1) The amount appropriated pursuant to this subdivision shall be allocated to school districts and community college districts as defined in subdivision (a) of Section 41203.1.

(2) The amount allocated to school districts pursuant to this subdivision shall be distributed in a manner that reflects the proportion of regular average daily attendance in school districts, as defined in subdivision (a) of Section 41209, as those numbers are reported at the time of the second principal apportionment for the fiscal year prior to the fiscal year in which funds are to be received.

(3) The amount annually allocated to community college districts pursuant to this subdivision shall be distributed based on enrolled full-time equivalent students, as those numbers are reported at the time of the second principal apportionment for the fiscal year prior to the fiscal year in which funds are to be received.

(4) For purposes of this subdivision a school district includes a county office of education and a charter school.

(b) For purposes of Section 8 of Article XVI of the California Constitution, the amounts appropriated and allocated pursuant to this section shall be applied to the outstanding balance of the minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution for the 2009–10 fiscal year, and shall be deemed to be appropriations made and allocated in that fiscal year in which the deficiencies resulting in the outstanding balance were incurred.

(c) Funding received by school districts and community college districts pursuant to this section shall first be deemed to be paid in satisfaction of any outstanding claims pursuant to Section 6 of Article XIII B of the California Constitution for reimbursement of state-mandated local costs for any fiscal year. Notwithstanding any amounts that are deemed, pursuant to this subdivision, to be paid in satisfaction of outstanding claims for reimbursement of state-mandated local costs, the Controller may audit any claim as allowed by law and may reduce any amount owed by school districts and community college districts pursuant to an audit by reducing amounts owed for any other mandate claims. The Controller shall apply amounts received by each school district or community college district against any balances of unpaid claims for reimbursement of state-mandated local costs and interest in chronological order beginning with the earliest claim. The Controller shall report to each school district and community college district the amounts of any claims and interest that are offset from funds provided pursuant to this section and shall report a summary of the amounts offset

for each mandate for each fiscal year to the Department of Finance and the fiscal committees of the Legislature. The governing board of a school district or community college district may expend funds received pursuant to this section in excess of amounts offsetting mandate claims for any other one-time purposes, as determined by the governing board.

(c) In computing the revenue limit for each school district for the 2010–11 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that school district had been determined for the 2009–10 fiscal year without being reduced by the deficit factors specified in subdivision (a).

42238.24. Costs related to the salaries and benefits of teachers incurred by a school district or county office of education to provide the courses specified in paragraph (1) of subdivision (a) of Section 51225.3 shall be offset by the amount of state funding apportioned to the district pursuant to

(a) A local educational agency, including a direct-funded charter school, may apply for any state categorical program funding included in the annual Budget Act on behalf of a school that begins operation in the 2008–09 to the 2012–13 fiscal years, inclusive, but only to the extent the school or local educational agency is eligible for funding and meets the provisions of the program that were in effect as of January 1, 2009, except that charter schools shall not apply for any of the programs contained in Section 47634.4.

(b) A local educational agency that establishes a new school by redirecting enrollment from its existing schools to the new school shall not be eligible to receive funding in addition to the amounts allocated pursuant to Section 42605 for the categorical programs specified in that section or for the class size reduction program pursuant to Sections 52122 and 52124.

(c) The Superintendent shall report the number of new schools and the programs that these schools are applying for, including an estimate of the cost for that year. This information shall be reported by November 11, 2009, and each fiscal year thereafter, to the appropriate committees of the Legislature, the Legislative Analyst's Office, and the Department of Finance.

The supplemental categorical block grant shall equal one hundred twenty-seven dollars (\$127) per unit of charter school average daily attendance as determined at the 2010–11 second principal apportionment. These supplemental categorical block grant funds may be used for any educational purpose. A locally funded charter school that converted from a preexisting school between the 2008–09 and 2010–11 fiscal years is not eligible for funding specified in this section. A charter school that receives funding pursuant to this subdivision shall not receive additional funding for programs specified in paragraph (2) of subdivision (a) of Section 42605, with the exception of the program funded pursuant to Item 6110-211-0001 of Section 2.00 of the annual Budget Act.

(b) Teachers shall submit their applications for an award authorized by this article to the school district employing them. Teachers employed by a charter school shall submit their application through the school district granting the school's charter.

(c) The department shall approve applications submitted by school districts that meet the criteria established pursuant to subdivision (b) of Section 44395. To the extent funds are available, the department shall apportion funds to the appropriate school districts in the amount of the award authorized by Section 44395 for each approved application. The school district shall use funds apportioned to it pursuant to this subdivision to provide the amount of the award authorized by subdivision (a) of Section 44395 to each teacher whose application is approved.

SEC. 19. Section 47614.5 of the Education Code is amended to read:

47614.5. (a) The Charter School Facility Grant Program is hereby established and shall be administered by the department. The grant program is intended to provide assistance with facilities rent and lease costs for pupils in charter schools.

(b) Subject to the annual Budget Act, eligible schools shall receive an amount of up to, but not more than, seven hundred fifty dollars (\$750) per unit of average daily attendance, as certified at the second principal apportionment, to provide an amount of up to, but not more than, 75 percent of the annual facilities rent and lease costs for the charter school. In any fiscal year, if the funds appropriated for the purposes of this section by the annual Budget Act are insufficient to fund the approved amounts fully, the Superintendent shall apportion the available funds on a pro rata basis.

(c) For purposes of this section, the department shall do all of the following:

(1) Inform charter schools of the grant program.

(2) Upon application by a charter school, determine eligibility, based on the geographic location of the charter schoolsite, pupil eligibility for free or reduced price meals, and a preference in admissions, as appropriate. Eligibility for funding shall not be limited to the grade level or levels served by the school whose attendance area is used to determine eligibility. Charter schoolsites are eligible for funding pursuant to this section if the charter schoolsite meets either of the following conditions:

(A) The charter schoolsite is physically located in the attendance area of a public elementary school in which 70 percent or more of the pupil enrollment is eligible for free or reduced priced meals and the schoolsite

gives a preference in admissions to pupils who are currently enrolled in that public elementary school and to pupils who reside in the elementary school attendance area where the charter schoolsite is located.

(B) Seventy percent or more of the pupil enrollment at the charter schoolsite is eligible for free or reduced price meals.

(3) Inform charter schools of their grant eligibility.

(4) Allocate funding to charter schools for eligible expenditures in a timely manner.

(5) No later than June 30, 2005, report to the Legislature on the number of charter schools that have participated in the grant program pursuant to the expanded eligibility prescribed in paragraph (2). In addition, the report shall provide recommendations and suggestions on improving the grant program.

(d) Funds appropriated for purposes of this section shall not be apportioned for any of the following:

(1) Units of average daily attendance generated through nonclassroom-based instruction as defined by paragraph (2) of subdivision (d) of Section 47612.5 or that does not comply with conditions or limitations set forth in regulations adopted by the state board pursuant to this section.

(2) Charter schools occupying existing school district or county office of education facilities.

(3) Charter schools receiving reasonably equivalent facilities from their chartering authority pursuant to Section 47614.

(e) Funds appropriated for purposes of this section shall be used for costs associated with facilities rents and leases, consistent with the definitions used in the California School Accounting Manual. These funds also may be used for costs, including, but not limited to, costs associated with remodeling buildings, deferred maintenance, initially installing or extending service systems and other built-in equipment, and improving sites.

(f) If an existing charter school located in an elementary attendance area in which less than 50 percent of pupil enrollment is eligible for free or reduced price meals relocates to an attendance area identified in paragraph (2) of subdivision (c), admissions preference shall be given to pupils who reside in the elementary school attendance area into which the charter school is relocating.

(g) The Superintendent annually shall report to the state board regarding the use of funds that have been made available during the fiscal year to each charter school pursuant to the grant program.

(h) It is the intent of the Legislature that not less than eighteen million dollars (\$18,000,000) annually be appropriated for purposes of the grant program on the same basis as other elementary and secondary education categorical programs.

(i) The Superintendent shall annually allocate the facilities grants to eligible charter schools no later than October 1 of each fiscal year or 90 days after enactment of the annual Budget Act, whichever is later, for the current school year rent and lease costs. However, the department shall first

use the funding appropriated for this program to reimburse eligible charter schools for unreimbursed rent or lease costs for the prior school year.

SEC. 20. Section 47634.4 of the Education Code is amended to read:

47634.4. (a) A charter school that elects to receive its funding directly, pursuant to Section 47651, may apply individually for federal and state categorical programs, not excluded in this section, but only to the extent it is eligible for funding and meets the provisions of the program. For purposes of determining eligibility for, and allocation of, state or federal categorical aid, a charter school that applies individually shall be deemed to be a school district, except as otherwise provided in this chapter.

(b) A charter school that does not elect to receive its funding directly, pursuant to Section 47651, may, in cooperation with its chartering authority, apply for federal and state categorical programs not specified in this section, but only to the extent it is eligible for funding and meets the provisions of the program.

(c) Notwithstanding any other provision of law, for the 2006–07 fiscal year and each fiscal year thereafter, a charter school may not apply directly for categorical programs for which services are exclusively or almost exclusively provided by a county office of education.

In order to provide maximum access, the institutes shall be offered at sites widely distributed throughout the state, which shall include programs offered through instructor-led, interactive online courses, in accordance with existing state law. In order to maximize access to teachers and administrators who may be precluded from participating in an onsite institute due to geographical, physical, or time constraints, each institute shall accommodate at least 5 percent of the participants through existing state-approved online instructor-led courses, programs, or both. The California subject matter projects, an intersegmental, discipline-based professional development network administered by the University of California, is requested to be the organizing entity for the institutes and followup programs.

(b) (1) The institutes shall provide instruction for school teams from each school participating in the program established pursuant to this section. The institutes may provide instruction for school teams serving English language learners in kindergarten and grades 1 to 12, inclusive. A school team shall include teachers who do not hold crosscultural or bilingual-crosscultural certificates or their equivalents, teachers who hold those certificates or their equivalents, and a schoolsite administrator. The

majority of the team shall be teachers who do not hold those crosscultural certificates or their equivalents. If the participating school team employs instructional assistants who provide instructional services to English language learners, the team may include these instructional assistants.

(2) Commencing in July 2000, the English Language Development Institutes shall provide instruction to an additional 10,000 participants. These participants shall be in addition to the 5,000 participants authorized as of January 1, 2000. Commencing July 2001, and each fiscal year thereafter, the number of participants receiving instruction through the English Language Development Institutes shall be specified in the annual Budget Act.

(3) Criteria and priority for selection of participating school teams shall include, but not necessarily be limited to, all of the following:

(A) Schools whose pupils' reading scores are at or below the 40th percentile on the English language arts portion of the achievement test authorized by Section 60640.

(B) Schools in which a high percentage of pupils score below grade level on the English language development assessment authorized by Section 60810, when it is developed.

(C) Schools with a high number of new, underprepared, and noncredentialed teachers. Underprepared teachers shall be defined as teachers who do not possess a crosscultural or bilingual-crosscultural certificate, or their equivalents.

(D) Schools in which the enrollment of English language learners exceeds 25 percent of the total school enrollment.

(E) Schools with a full complement of team members as described in paragraph (1).

(4) In any fiscal year, if funding is inadequate to accommodate the participation of all eligible school teams, first priority shall be given to schools meeting the criteria set forth in subparagraph (C) of paragraph (3).

(c) Each team member who satisfactorily completes an institute authorized by this section shall receive a stipend, commensurate with the duration of the institute, of not less than one thousand dollars (\$1,000) nor more than two thousand dollars (\$2,000), as determined by the University of California.

(d) Instruction provided by the institutes shall be consistent with state-adopted academic content standards and with the English language development standards adopted pursuant to Section 60811.

(e) (1) Instruction at the institutes shall consist of an intensive, sustained training period of no less than 40 hours nor more than 80 hours during the summer or during an intersession break or an equivalent instructor-led, online course and shall be supplemented during the following school year with no fewer than 80 hours nor more than 120 hours of instruction and schoolsite meetings, held on at least a monthly basis, to focus on the academic progress of English language learners at that school.

(2) Instruction at the institutes shall be of sufficient scope, depth, and duration to fully equip instructional personnel to offer a comprehensive and rigorous instructional program for English language learners and to assess

pupil progress so these pupils can meet the academic content and performance standards adopted by the state board. The instruction shall be designed to increase the capacity of teachers and other school personnel to provide and assess standards-based instruction for English language learners.

(3) The instruction shall be multidisciplinary and focus on instruction in disciplines for which the state board has adopted academic content standards. The instruction shall also be research-based and provide effective models of professional development in order to ensure that instructional personnel increase their skills, at a minimum, in all of the following:

(A) Literacy instruction and assessment for diverse pupil populations, including instruction in the teaching of reading that is research-based and consistent with the balanced, comprehensive strategies required under Section 44757.

(B) English language development and second language acquisition strategies.

(C) Specially designed instruction and assessment in English.

(D) Application of appropriate assessment instruments to assess language proficiency and utilization of benchmarks for reclassification of pupils from English language learners to fully English proficient.

(E) Examination of pupil work as a basis for the alignment of standards, instruction, and assessment.

(F) Use of appropriate instructional materials to assist English language learners to attain academic content standards.

(G) Instructional technology and its integration into the school curriculum for English language learners.

(H) Parent involvement and effective practices for building partnerships with parents.

(f) A local educational agency may use its economic impact aid funds for purposes of this section.

(g) It is the intent of the Legislature that a local educational agency or postsecondary institution that offers an accredited program of professional preparation consider providing partial and proportional credit toward satisfaction of the course requirements to an enrolled candidate who satisfactorily completes a California English Language Development Institute program if the program has been certified by the Commission on Teacher Credentialing as meeting preparation standards.

(h) This section does not prohibit a team member from attending an institute authorized by this section in more than one academic year.

(i) This section shall not apply to the University of California unless and until the Regents of the University of California act, by resolution, to make it applicable.

(c) Notwithstanding Section 41202 of the Education Code, the amounts reverted pursuant to subdivision (a) shall not be included in the calculation of the minimum funding obligation pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution.

(d) (1) The Superintendent of Public Instruction shall calculate the following amount: one billion five hundred sixteen million dollars (\$1,516,000,000) divided by the statewide sum of 2008–09 second principal apportionment average daily attendance for school districts, county offices of education, and charter schools.
